

Optimize Your NP & PA Workforce

Empower Your NPs & PAs in Gastroenterology

Overview

The ThriveAP Gastroenterology Program was developed leveraging blueprints from the American Board of Internal Medicine Gastroenterology examination blueprint. A dedicated curriculum committee continuously reviews and updates the content to maintain alignment with evidence-based practices, current billing and coding standards, and identified medical knowledge gaps.

Program Details

This is a comprehensive, 12-month synchronous and asynchronous program, with 10 start dates annually, designed to align with the clinical guidelines from the ABIM Gastroenterology Blueprint. The guided curriculum promotes collaborative, evidence-based practices and patient-centered care, awarding over 100 hours of CME/CE upon completion. Employers obtain data-driven insights and success metrics of their participants each month, while ThriveAP learners gain expertise, professional development, and one-on-one coaching from highly respected NP and PA leaders in the field of gastroenterology, alongside a supportive cohort of peers. Whether the learner is a newer NP or PA, a provider transitioning to gastroenterology, or an expert provider exploring a new field, our ThriveAP programs upskill providers and mitigates learning gaps for confident and competent care.

Course Details

Improved Patient Access to Care

Empower providers for increased coverage, wRVUs and value-based care.

Efficient Provider Workforce

Optimize provider billing, coding, charting and documentation.

Reduced Ramp-Up Time

Quickly onboard providers to perform at top of licensure with highest-quality care.
