

Optimize Your NP & PA Workforce

Empower Your NPs & PAs in Neurology

Overview

ThriveAP's Neurology Program is a live, online 12-month curriculum to help employers support nurse practitioners (NPs) and physician associates (PAs) transition to practice, addressing the unique needs of neurological care. The systems-based curriculum includes didactic clinical training in movement disorders, memory disorders, stroke, epilepsy, and neuromuscular disorders, allowing participants to gain expertise in caring for adults and children with complex neurologic conditions in the inpatient and subspecialty outpatient settings.

Program Details

This is a comprehensive, 12-month synchronous and asynchronous program, with 10 start dates annually, designed to align with the clinical guidelines from the Board of Neurology Exam Blueprint. The guided curriculum promotes collaborative, evidence-based practices and patient-centered care, awarding over 100 hours of CME/CE upon completion. Employers obtain data-driven insights and success metrics of their participants each month, while ThriveAP learners gain expertise, professional development, and one-on-one coaching from highly respected NP and PA leaders in the field of neurology, alongside a supportive cohort of peers. Whether the learner is a newer NP or PA or a seasoned provider transitioning to neurology, our ThriveAP programs empower providers and mitigate learning gaps for confident and competent care.

Course Details

Improved Patient Access to Care

Empower providers for increased coverage, wRVUs and value-based care.

Efficient Provider Workforce

Optimize provider billing, coding, charting and documentation.

Reduced Ramp-Up Time

Quickly onboard providers to perform at top of licensure with highest-quality care.

Enhanced Provider Confidence

Reduce risk and improve provider competence, satisfaction and retention.

Provider & Patient Satisfaction

Streamline processes and improve operational effectiveness for better outcomes.

Tailored Professional Development

Enhance role-specific conflict-management, communication and team collaboration.
