

Optimize Your NP & PA Workforce

Support Your Nurse Practitioners & PAs in Oncology

Overview

ThriveAP's General Oncology Program is a 12-month intensive curriculum to help employers attract, retain and train nurse practitioners (NPs) and physician associates (PAs) to develop confident and competent oncological care. Our live and online courses, with 10 start dates annually, improve access to care, mitigate learning gaps, and up-skill providers to efficiently address the complex needs of oncology patients. The guided curriculum promotes collaborative, evidence-based practices and patient-centered care, awarding over 100 hours of CME/CE upon completion. Employers obtain data-driven insights and success metrics of their participants each month, while ThriveAP learners gain expertise, professional development, and one-on-one coaching from highly respected NP and PA leaders in oncology, alongside a supportive cohort of peers.

Program Endorsement

ThriveAP's General Oncology Program is a comprehensive, guided curriculum created in partnership with, and endorsed by, the Association of PAs in Oncology (APAO), ensuring relevancy and alignment of educational programming for hematological and oncological care.

Course Details

Improved Patient Access to Care
Empower providers for increased coverage, wRVUs and value-based care.

Efficient Provider Workforce
Optimize provider billing, coding, charting and documentation.

Reduced Ramp-Up Time
Quickly onboard providers to perform at top of licensure with highest-quality care.

Enhanced Provider Confidence
