

Optimize Your NP & PA Workforce

Empower Your Nurse Practitioners & PAs in Pediatric Primary Care

Overview

ThriveAP's Pediatric Primary Care Program is a live and online educational curriculum to help employers support nurse practitioners (NPs) and physician associates (PAs) to improve patient access to care and efficiently address the unique needs of pediatric patients and family-based care. Whether the learner is a newer NP or PA, a family NP transitioning to pediatrics, or an expert provider exploring a new field, the program upskills providers and mitigates learning gaps for confident and competent pediatric care.

Program Details

This is a comprehensive, 12-month synchronous and asynchronous program with 10 start dates annually. The courses were designed in alignment with the position statements of the National Association of Pediatric Nurse Practitioners (NAPNAP) and the most common diagnoses in pediatric care by CMS. The guided curriculum promotes collaborative, evidence-based practices and patient-centered care, awarding over 100 hours of CME/CE upon program completion. Employers obtain data-driven insights and success metrics of their participants each month, while ThriveAP learners gain expertise, professional development, and one-on-one coaching from highly respected pediatric NP and PA leaders, alongside a supportive cohort of peers.

Course Details

Improved Patient Access to Care

Empower providers for increased coverage, wRVUs and value-based care.

Efficient Provider Workforce

Optimize provider billing, coding, charting and documentation.

Reduced Ramp-Up Time

Quickly onboard providers to perform at top of licensure with highest-quality care.

Enhanced Provider Confidence

Reduce risk and improve provider competence, satisfaction and retention.

Provider & Patient Satisfaction

Streamline processes and improve operational effectiveness for better outcomes.

Tailored Professional Development

Enhance role-specific conflict-management, communication and team collaboration.
